# welcome

Upon entering our practice, you will be greeted by a warm and peaceful atmosphere. Our attentive and dedicated team ensure you are extended the highest level of personalised care throughout every aspect of your appointment. At dentistry@676, we have created a serene patient lounge area where we invite you to relax prior to and following your appointment, whilst our treatment suites have been furnished to ensure your appointment is both comfortable and enjoyable.

Essential to your care is our understanding of your personal needs and aspirations. We take the time to thoroughly explain your options and develop with you a personalised treatment programme focused on helping you attain perfect oral health and the smile you have always desired. Our accomplished dentists Dr Ian Maratos and Dr Kotaro Kubo hold themselves to the highest professional standards and their extensive experience is complimented by their ongoing commitment to continuous education. This allows Dr Maratos, Dr Kubo and their dedicated team to provide you with an uncompromising level of care and clinical excellence.

# meet our dentists

## DR IAN MARATOS (Principal Dentist)

Graduating from the University of Melbourne with a Bachelor of Dental Science degree in 1984, Dr Ian Maratos provides comprehensive and cosmetic dental treatment for all patients. A firm believer in continuing education, Dr Maratos is involved with many affiliated Dental societies.

The additional knowledge and educational training Dr Maratos' gains in attending these extra-curricular sessions bestows him with the skills to best diagnosis, advise and treat all individual dental care needs. In particular, Dr Maratos has done extensive training and seeks immense enjoyment in cosmetic dental makeovers, orthodontic solutions and pain management for TMJ, head and neck concerns.

When he is not caring for his patients, Ian finds his greatest enjoyment in spending time with his wife Libby and their four young children. Both Ian and Libby have a love of travel and photography, evident throughout the practice with Libby's breathtaking photographs adorning the walls.

## DR KOTARO KUBO

Born in Japan, Kotaro completed his final years of high school in Melbourne before attaining his Bachelor of Dental Science degree in 2004 from the University of Melbourne. Kotaro brings with him a high level of commitment and dedication that the Japanese are renowned for:

Patients often comment how relaxed he makes them feel and how gentle and caring he is. Kotaro's main interests outside dentistry are playing electric guitar in a band and karaoke.

## cosmetic dentistry and smile makeovers

Your most personal and expressive asset is your smile. Restoring the smile you once had or creating the smile you have always wanted can dramatically enhance your confidence and physical and social self-image. Cosmetic dentistry utilises a variety of innovative procedures and high quality tooth-coloured restorations to improve or completely rejuvenate your smile.

Today's advanced cosmetic procedures can enhance your smile so it is white, straight, and beautiful; and importantly healthy. The changes achievable through cosmetic dentistry include:

- Close gaps between teeth
- Reshaping teeth using bonding techniques or porcelain veneers
- Whiten discoloured or stained teeth
- Repair chipped, broken or worn teeth
- Reposition crowded teeth
- Lengthen or shorten uneven teeth
- Replace a missing tooth or multiple teeth
- Replace old metal fillings with tooth coloured fillings

An intricate blend of art and dental science, requiring an experienced skilled hand and artistic eye capable of enhancing both the aesthetic and functional nature of your teeth, cosmetic dentistry can help you look and feel your best.

### teeth whitening

A captivating white smile can increase your confidence socially and professionally. While there are many over the counter teeth whitening products available, the products we use are custom fitted to your individual smile. This ensures you achieve a natural looking brighter smile, within the comfort of your own home, in only a few days.

If you prefer a more immediate result, in-office whitening is also available; taking a little over one hour to achieve instant whitening and complimented with an at home treatment.

Dental Implant

### specialised services

Our practice values all aspects of dentistry, therefore includes many treatments not available at every dental practice.

- TMJ treatment - a disorder affecting the alignment of the jaw and surrounding muscles, which can cause pain, headaches, dizziness and nausea
- Bad breath (halitosis)
- Implant dentistry
- Invisalign – clear Orthodontics
- Anti-snoring / obstructive sleep apnoea appliances
- Rehabilitation dentistry – crown and bridge, dentures

Invisalign™

### preventive dentistry

One of the key philosophies of our practice is the implementation of preventive care dentistry to diagnose and treat potential problems in their infancy, significantly reducing the need for extensive restorative procedures.

#### Preventive dentistry incorporates:

- Complete dental examination and detailed treatment planning
- Preventive care and advice
- Regular preventive treatments and hygiene maintenance appointments (cleaning)
- Diagnostic assessments of mouth irritations

### general dentistry

The provision of dental health care you receive from the dentistry@676 team extends beyond the aesthetics of your smile and may incorporate a myriad of procedures to ensure you achieve optimal oral health, correct alignment and permanent function.

- General dental care – tooth coloured fillings and sealants
- Periodontal (gum) treatment
- Gum tissue therapy to prevent gum disease
- Root canal (Endodontics) - a procedure that can save a natural tooth
- Restorative dentistry – crowns, bridges, dentures
- Emergency care

On a solid foundation of comprehensive preventive and general dentistry, we include fully aesthetic solutions for all our services. From a small restorative filling to a full cosmetic smile makeover, we routinely put artistic detail using the latest technology and highest professional standards into the finished product of our work.
